

TRASH

Dumpster

When disposing of items in the dumpster, try to be considerate of your neighbors. If you can, **toss items toward the back of the dumpster** please do so. This will help utilize the space and allow everyone to dispose of more garbage.

Also, please remember not to fill the entire dumpster so that there isn't room for anyone else's garbage. For example, **if you have new carpet installed, please ask your vendor if they can dispose of the old carpet for you.** Usually, they can for a minimal fee. If not, you may want to dispose of the carpet a little at a time rather than all at once.

Don't forget to break down large boxes. If you dispose of a large item such as a chair, **it should not protrude to the outside of the dumpster. Never leave anything along the outside** and be sure that all refuse fits within the dumpster. This is a courtesy to all of our residents.

Recycling

If you choose to recycle, please dispose of all recyclable products into the containers. However, please **do not recycle plastic bags** (they tend to gum up the recycling machines).
